DETAILED ACTION

Claim Objections

1. Claim 1 is objected to because of the following informalities:

Claim 1, line 4, "the central" should be --a central--.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Ressler (5,137,413).

Ressler discloses a mini-van (10) having a rear opening (28), a rear door (29) that closes off the rear opening (28), an extendible ramp (44), and a bumper. The bumper (30) is divided into three sections. A central section is attached to a side of ramp (44). The ramp, including the central section, is pivotally attached to the vehicle body and indirectly to the outer bumper sections. The ramp (44) closes off the drop floor.

4. Claims 7 and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Deacon (Re. 31,178).

Deacon discloses a van (11) having a rear opening, a rear door that closes off the rear opening, an extendible ramp (15), and a gate. One of the structures (13) is the gate, while the other one (13) is the rear door. The gate pivots about a substantially vertical axis to provide access to the rear opening. A latch, shown in Figure 1, attaches the door to the gate.

Allowable Subject Matter

5. Claims 3-6, 8, and 9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
